

The University Club

The University Club of New York's
2011 Ketcham Cup National Intercollegiate Doubles Championships,
March 11th-13th, 2011

We are very excited to host this year's National Intercollegiate Doubles Championships. The Ketcham Cup invitational was re-launched in 1999. In 2000 The University Club became the host of the CSA Doubles Championship. Since then a number of college players have attended this tournament each year and raved about it. Doubles squash is an ever growing sport among recent college graduates and we hope to foster that growth among undergraduates. There has been great competition and a wonderful setting in midtown Manhattan. The University club and the CSA are very much looking forward to hosting another great event this year.

In the past we have had a women's championship and we are once again looking to revive that tradition this year.

The players are guests of The University Club while they are here. We encourage all of the players to stay at the club. It adds immensely to their experience. The cost is \$150 per room per night. If two players share a room, that is \$75 per night—a pretty good deal for one of the finest hotels in the world situated at the corner of Fifth Avenue and 54th Street in the heart of NYC. We provide buffet breakfasts and lunches as well as beverages throughout the play period. In addition, we will host a dinner for the players on Saturday evening in our Tap Room.

Depending on the amount of players, matches will begin Friday night and proceed through Sunday early afternoon.

We ask that the players wear all white on court. We will launder their gear at the end of each day (so they'll need up to 2-3 changes of gear for a day.)

We also expect the players to follow our dress code while in the club. Men wear a coat and tie and the equivalent for Women. Additionally, cell phone use is not allowed in public spaces within the club.

This is a wonderful time for the players to come to the heart of New York and spend 3 days playing squash in the premier squash facility in New York and stay in one of NYC's top landmark buildings.
